# ARDEX K 39

HEAVY DUTY, HIGH FLOW LEVELLING  
AND SMOOTHING COMPOUND

- Extended working time of 40 minutes
- Superior flow and finish, with minimum effort
- Eliminates trowel marks
- Walkable in 2 hours

## Application with a pin rake

## Application with a trowel

## Get off your knees with ARDEX K 39

**With its superior levelling and smoothing properties, ARDEX K 39 ensures the best possible finish with minimum effort, even standing up, utilising a pin rake or smoothing blade.**

With its extended wet edge, fresh applications of ARDEX K 39 can be easily smoothed into existing pre-applied material for up to 40 minutes after application, making it ideal for complicated areas, adjoining rooms and large areas where pumping is required. Furthermore, the use of ARDEX K 39 eliminates the need to 'rub down' the adjoining mixes the following day.
