

RIAI Approved Flooring & Tiling CPDs

About ARDEX

The synergy between cutting edge products and technical expertise, based on decades of experience, has proved a winning formula in some of the most prestigious building projects around the world.

For more than 70 years, ARDEX has been a quality leader for the flooring and tiling industries, the brand of choice for installers and distributors. ARDEX today is still an independent family-owned business. This means we have been able to retain our most important tradition: uncompromising quality. This is something we guarantee by applying the latest rigidly enforced quality assurance procedures, making it no coincidence that ARDEX is regarded as a premium partner of the construction industry.

Elevate your expertise, with ARDEX flooring and tiling CPDs

ARDEX is committed to providing RIAI approved Flooring and Tiling CPD Seminars that allow attendees to improve and broaden their skill base.

Our seminars can be delivered at your practice or by an online webinar at a time of your convenience.

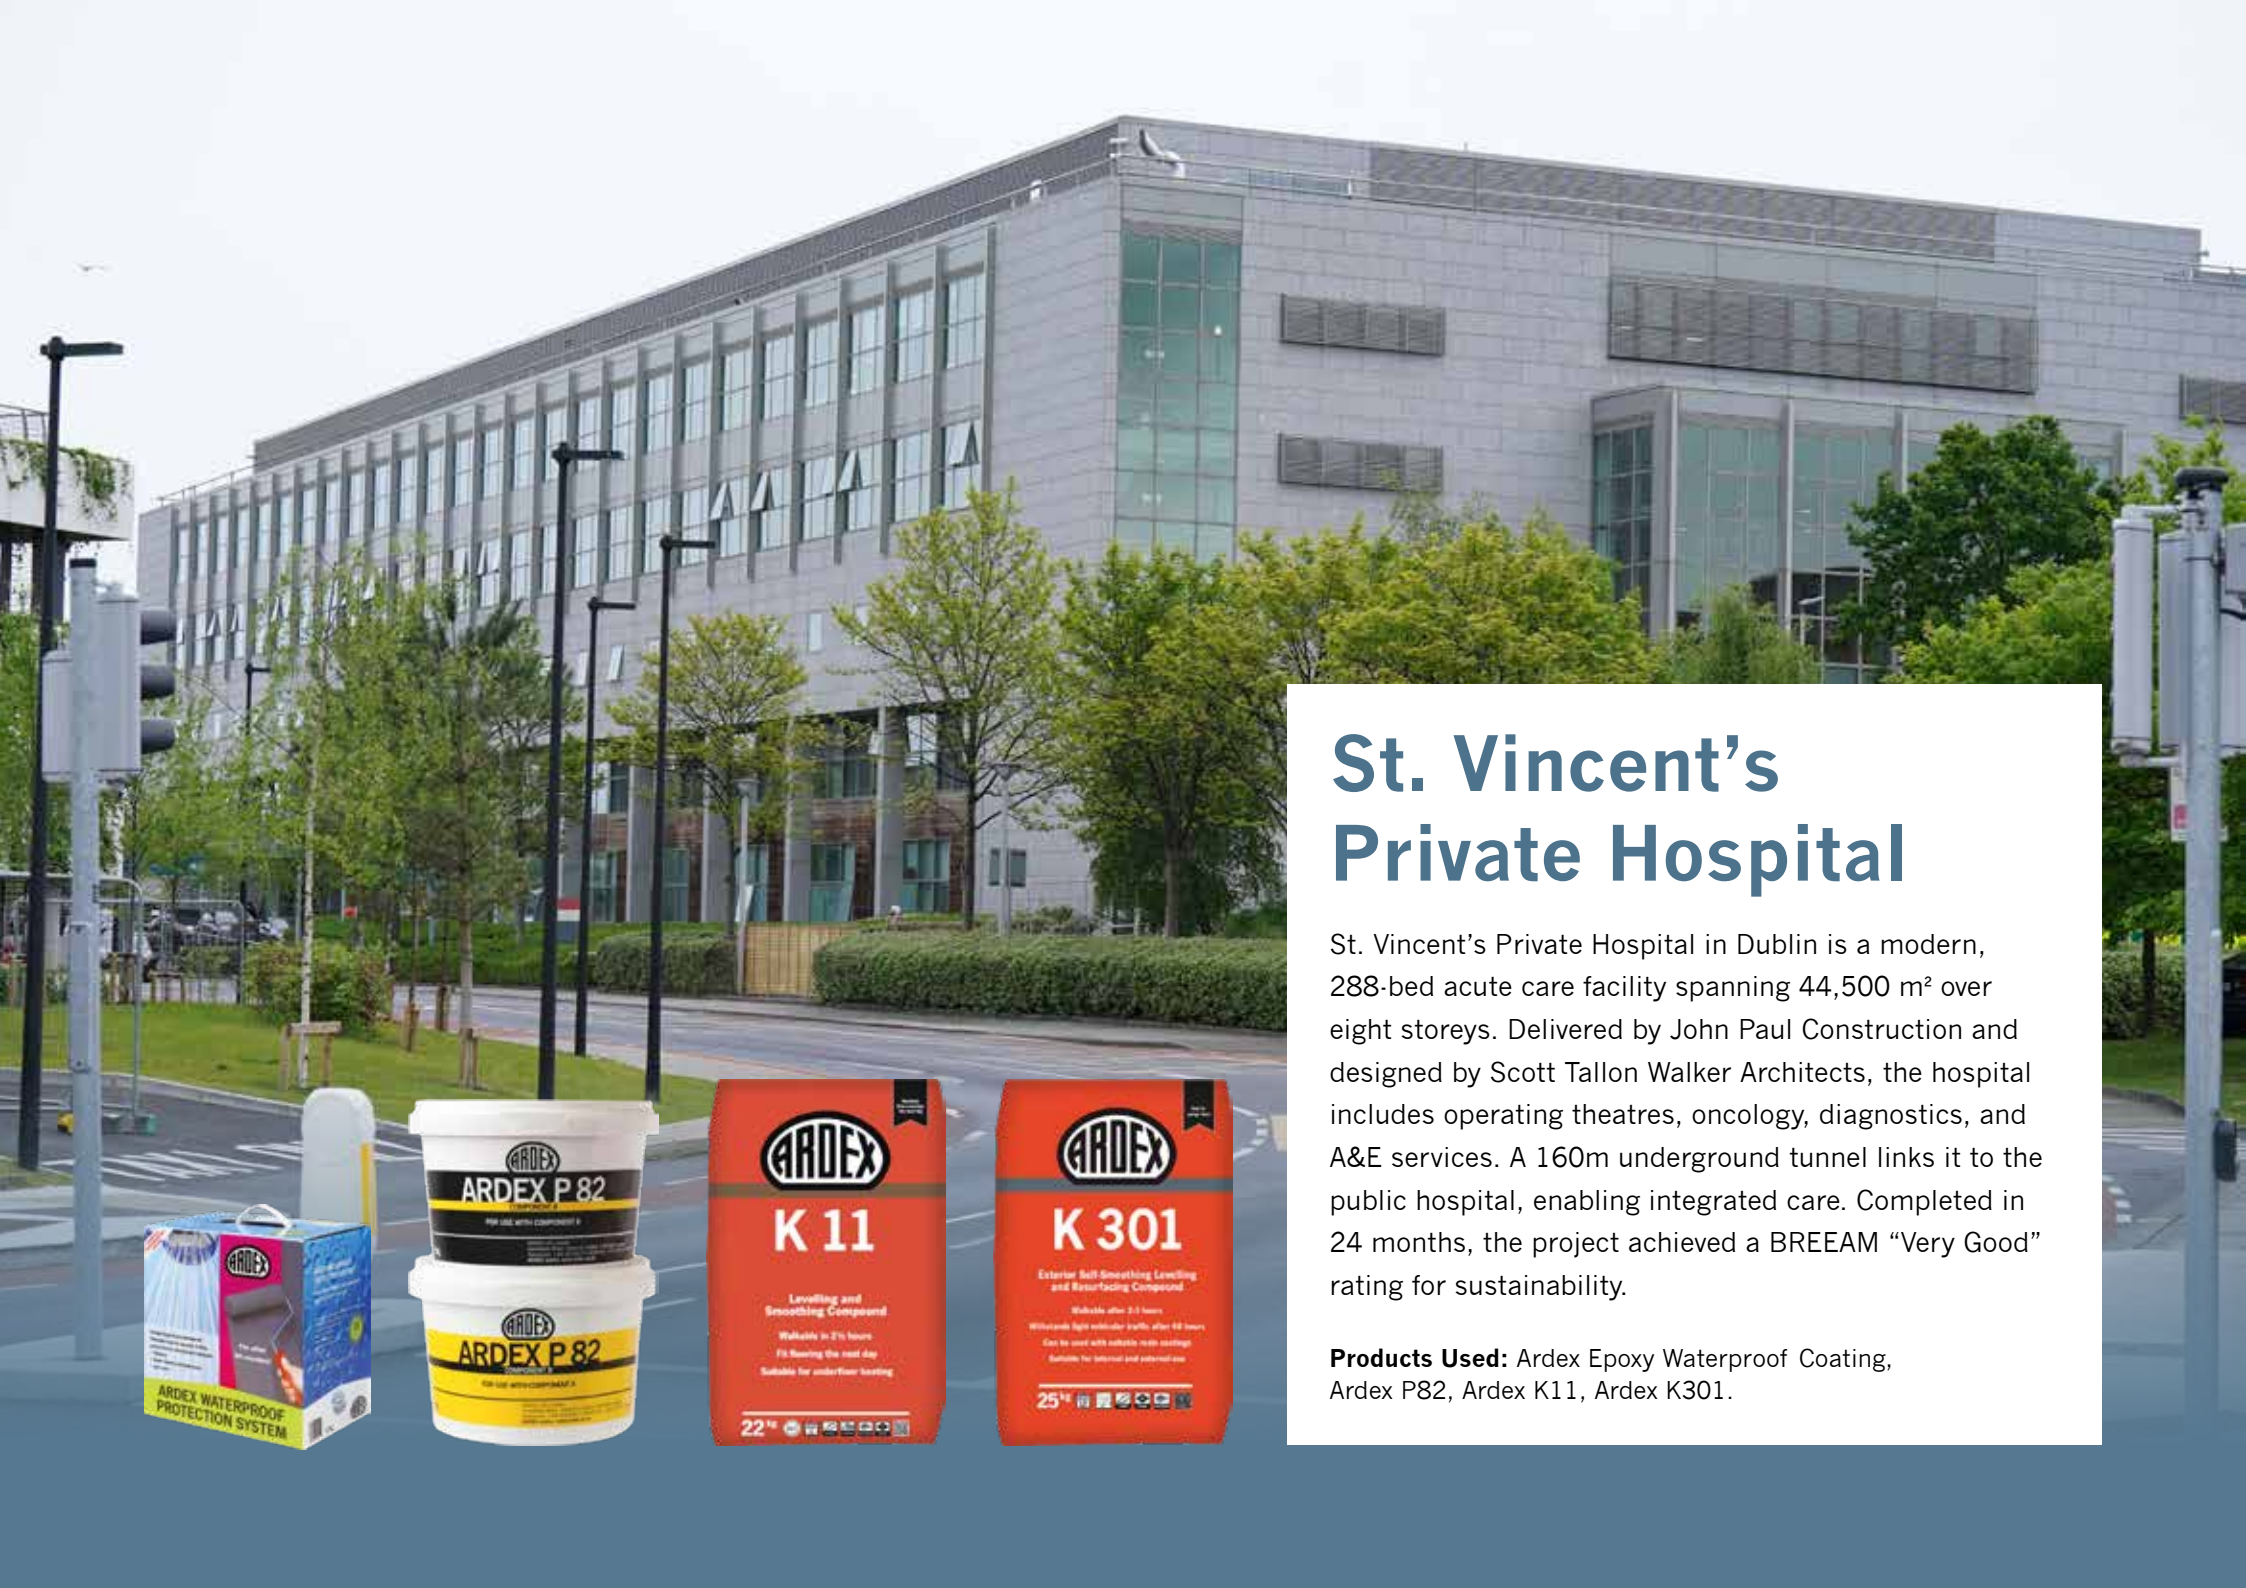

ARDEX RIAI APPROVED CPD SEMINARS:

- 01 Specify Screeding, Leveling and Sub-floor Preparation
- 02 Floor Tiling Solutions
- 03 Specify Natural Stone Wall and Floor Tiling with confidence
- 04 Specifying Tiling and Flooring for Underfloor Heating
- 05 Specifying Tiling in Wet-rooms
- 06 Specifying Tiling for Swimming Pools and Leisure Centres
- 07 Specify Large Format Tiles for Wall and Floor with Confidence
- 08 Building Board Solutions
- 09 Wet Room Solutions

Office Address: Unit 622, Phase III, Northwest Logistics Park, Ballycoolin, Blanchardstown, Dublin, D15 VN36, Ireland.

RIAI Registered

St. Vincent's Private Hospital

St. Vincent's Private Hospital in Dublin is a modern, 288-bed acute care facility spanning 44,500 m² over eight storeys. Delivered by John Paul Construction and designed by Scott Tallon Walker Architects, the hospital includes operating theatres, oncology, diagnostics, and A&E services. A 160m underground tunnel links it to the public hospital, enabling integrated care. Completed in 24 months, the project achieved a BREEAM "Very Good" rating for sustainability.

Products Used: Ardex Epoxy Waterproof Coating, Ardex P82, Ardex K11, Ardex K301.

01 Specify Screeding, Leveling and Sub-floor Preparation

Provider: ARDEX Building Products Ireland Ltd.

Training Subject: Screeding, Levelling and Sub-floor Preparation, ONLINE Options

This CPD seminar aims to enable listeners to make informed choices when specifying screeding, levelling & sub floor preparation by considering the impact of the type, strength, soundness, flatness and moisture content of the sub-floor and how by achieving a perfect specification beneath, aspirations regarding the look of the final floor covering can be met. It will also demonstrate how to avoid common installation failures through optimum product specification and guidance on best practice. Having listened to this CPD, the audience should feel confident about selecting and specifying the appropriate preparation products in most situations.

A large, blue, arched sign for Smyths Toys Superstores is mounted on a brick building. The sign features the word "SMYTHS" in large, yellow, 3D block letters with red outlines, and "TOYS SUPERSTORES" in smaller, red, sans-serif capital letters below it. The building has a brick facade and a dark grey corrugated metal roof.

SMYTHS

TOYS SUPERSTORES

Smyths Toy Stores

Smyths Toys, one of the largest toy retailers in Ireland and the UK, has undertaken a strategic development initiative to expand and modernize its retail footprint. The project encompasses the construction of new stores, refurbishment of existing units, and the integration of advanced retail technologies to enhance customer experience and operational efficiency.

Products Used: Ardex AF145, ArditeX CL, Ardex P82, Ardex Epoxy Waterproof Coating.

02 Floor Tiling Solutions

Provider: ARDEX Building Products Ireland Ltd.

Training Subject: Floor Tiling Solutions, ONLINE Options

The purpose of the BAL Tiling seminar is to bring to you some of the specialist knowledge we've gathered and developed during the years, in the selection and installation of tiles and panels. It is our aim to inform you the key issues in choosing and installing internal large format tiles and panels, and help you gain confidence in specifying these in any contract or project. Throughout this seminar we'll highlight the common problems and watch-points, and at the end of the session will summarise key learning outcomes.

Kia Garage, Carlow

As part of a significant refurbishment of the Kia Garage in Carlow, the architectural team required a floor tiling system capable of withstanding high footfall, heavy loads, and showroom traffic, while also delivering a premium finish aligned with the Kia brand identity. Floor Tiling Solutions (BAL) worked closely with the architects and design team to develop a full specification using BAL adhesives, grouts, preparation and protection systems, all supported by ARDEX technical expertise. The result is a durable, high-performance showroom floor with a 25-year guarantee on the complete system.

Products Used: BAL XL Floor One, BAL Micomax3 Grout, BAL Grout Effect Silicone, BAL Level Max.

03 Specify Natural Stone Wall and Floor Tiling with confidence

Provider: ARDEX Building Products Ireland Ltd.

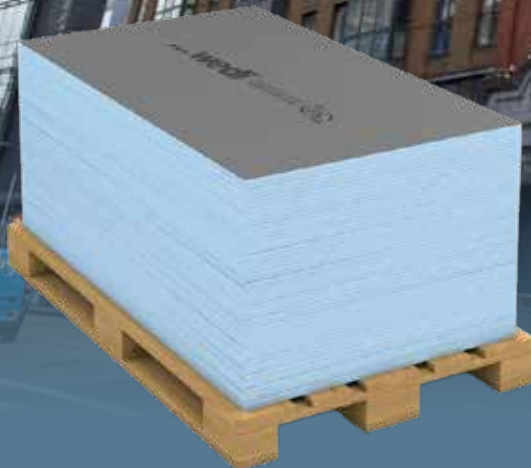

Training Subject: Specify Natural Stone Wall and Floor Tiling with confidence, ONLINE Options.

The aim of this CPD seminar is to enable listeners to make informed choices on the selection of materials when specifying natural stone tiling by considering the impact that natural stone tiles, backgrounds and finished environments will have on the adhesive and grout specification. It will also demonstrate how to avoid common installation failures through optimum product specification and guidance on best practice.

Trinity Hotel, Dublin

The Trinity Hotel, a landmark property in Dublin city centre, recently underwent a major renovation to upgrade guest facilities and deliver a modern, luxury experience. As part of this project, multiple wet-rooms were specified using large format wall and floor tiles, requiring a technically robust and fully compatible system to ensure watertightness, durability, and premium aesthetics.

Products Used: Full Wedi® System, BAL XL Floor One, BAL Micromax3 Grout, BAL Grout Effect Silicone.

04 Specifying Tiling and Flooring for Underfloor Heating

Provider: ARDEX Building Products Ireland Ltd.

Training Subject: Specifying Tiling and Flooring for Underfloor Heating, ONLINE Options

Learn about the different Underfloor Heating systems, their features and best use. Understand the potential issues with the specification of Underfloor Heating. Take account of the key consideration areas for specifying Underfloor Heating in order to tackle the potential problems. Learn about key watch points when specifying Underfloor Heating with resilient floor covering. Learn about key watch points when specifying Underfloor Heating with tile and stone floor covering.

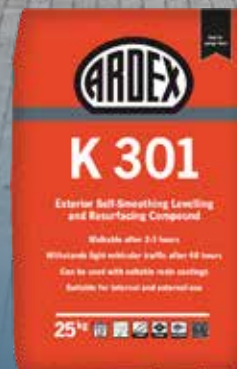

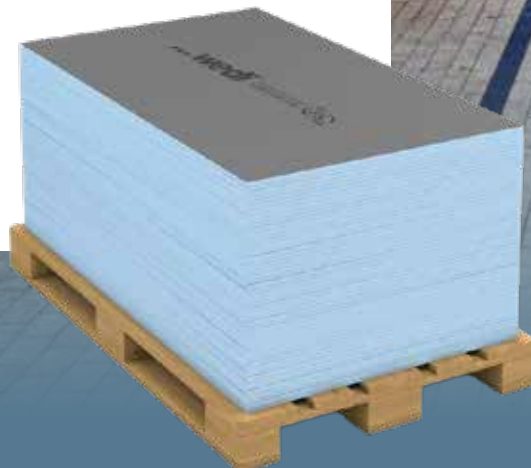

Templemore Pool

The Templemore Pool project involves the restoration and expansion of the historic Templemore Baths in Belfast. This £17 million redevelopment aims to preserve the Victorian heritage of the building while providing modern leisure and spa facilities. The project includes the restoration of the original building, the addition of a new 25m six-lane swimming pool, an 80-station gym, spa facilities, and a new café

Products Used:

Full Wedi® System,
Ardex K301,
Ardex AM100,
Ardex RG12,
Ardex X7G Plus.

05 Specifying Tiling in Wet-rooms

Provider: ARDEX Building Products Ireland Ltd.

Training Subject: Specifying Tiling in Wet-rooms, ONLINE Options

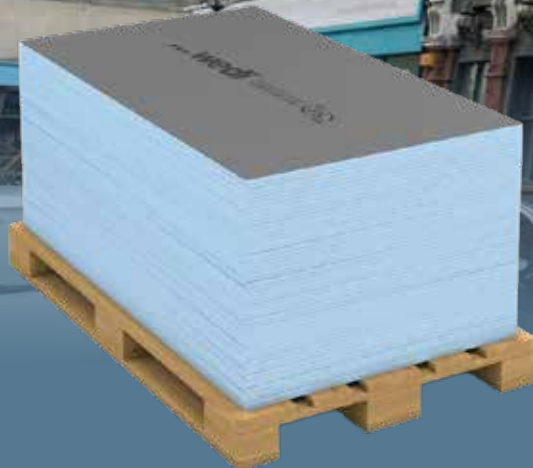

The aim of the presentation is to inform and assist in the design process for the successful specification and installation of ceramic tiling by avoiding common problems which can occur within a wet room. These individually and collectively take into account the type of substrate and any specialist requirements, the impact of various environmental factors and suitable pre-preparation required in order to ensure longevity of performance in service.

Other factors which are addressed include relevant health and safety issues as well as offering guidance on the correct selection of materials and their technical requirements and specifications. Where applicable, this seminar highlights the most important and relevant British (and European) Standards relating to ceramic and natural stone tiling in wet-rooms. The seminar also provides an overview of the different types of adhesive & grout technology available and describes the relevance of these in terms of the new BS/EN Classifications. There is a section included, which highlights some of the potential problems that may be encountered, demonstrating how these problems can arise and offering advice on preventative measures, thus helping to avoid potentially costly problems.

Central Hotel, Dublin

The Central Hotel Dublin project involves the extensive refurbishment and redevelopment of the historic Central Hotel located on Exchequer Street in Dublin. This ambitious project aims to transform the site into Ireland's first Hoxton Hotel, featuring 129 redesigned rooms, a significantly expanded bar, new restaurant spaces, and the return of the revitalised Rí-Rá nightclub and the refreshed Globe bar 1 2. The redevelopment blends Dublin's unique charm with the Hoxton's renowned style, already popular in cities like London, Paris, Amsterdam, and Chicago 3.

Products Used: Full Wedi® System, Ardex X325, Ardex A38, Ardex P51, BAL Micromax3 Grout, Ardex AF460.

06 Specifying Tiling for Swimming Pools and Leisure Centres

Provider: ARDEX Building Products Ireland Ltd.

Training Subject: Specifying Tiling for Swimming Pools and Leisure Centres, ONLINE Options.

The aim of the presentation is to inform and assist in the design process for the successful specification and installation of ceramic tiling, when used in Leisure environments. This is in order to ensure longevity of performance and service. Ceramic tiles or natural stone tiles are particularly suitable for use in both new build and refurbishment works. Factors which are addressed include relevant health and safety issues, offering guidance correct selection of materials and their technical requirements and specifications, information on avoiding potential costly problems.

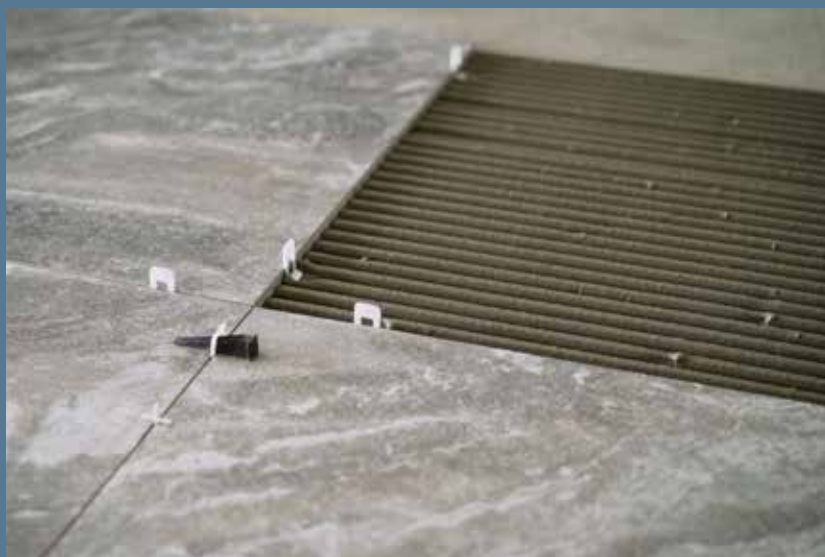

Lidl Maynooth, Net Zero Energy Supermarket

Lidl Ireland is developing a state-of-the-art, environmentally sustainable supermarket in Maynooth, Co. Kildare. This project represents a major milestone in Lidl's commitment to sustainability, being the first store in Ireland designed to achieve Net Zero Energy and BREEAM accreditation. This project aligns with Lidl's broader sustainability strategy and national expansion plan, serving as a prototype for future store developments across Ireland and Europe.

Products Used: Ardex 4x4, Duramit 50, Ardex FS Grout.

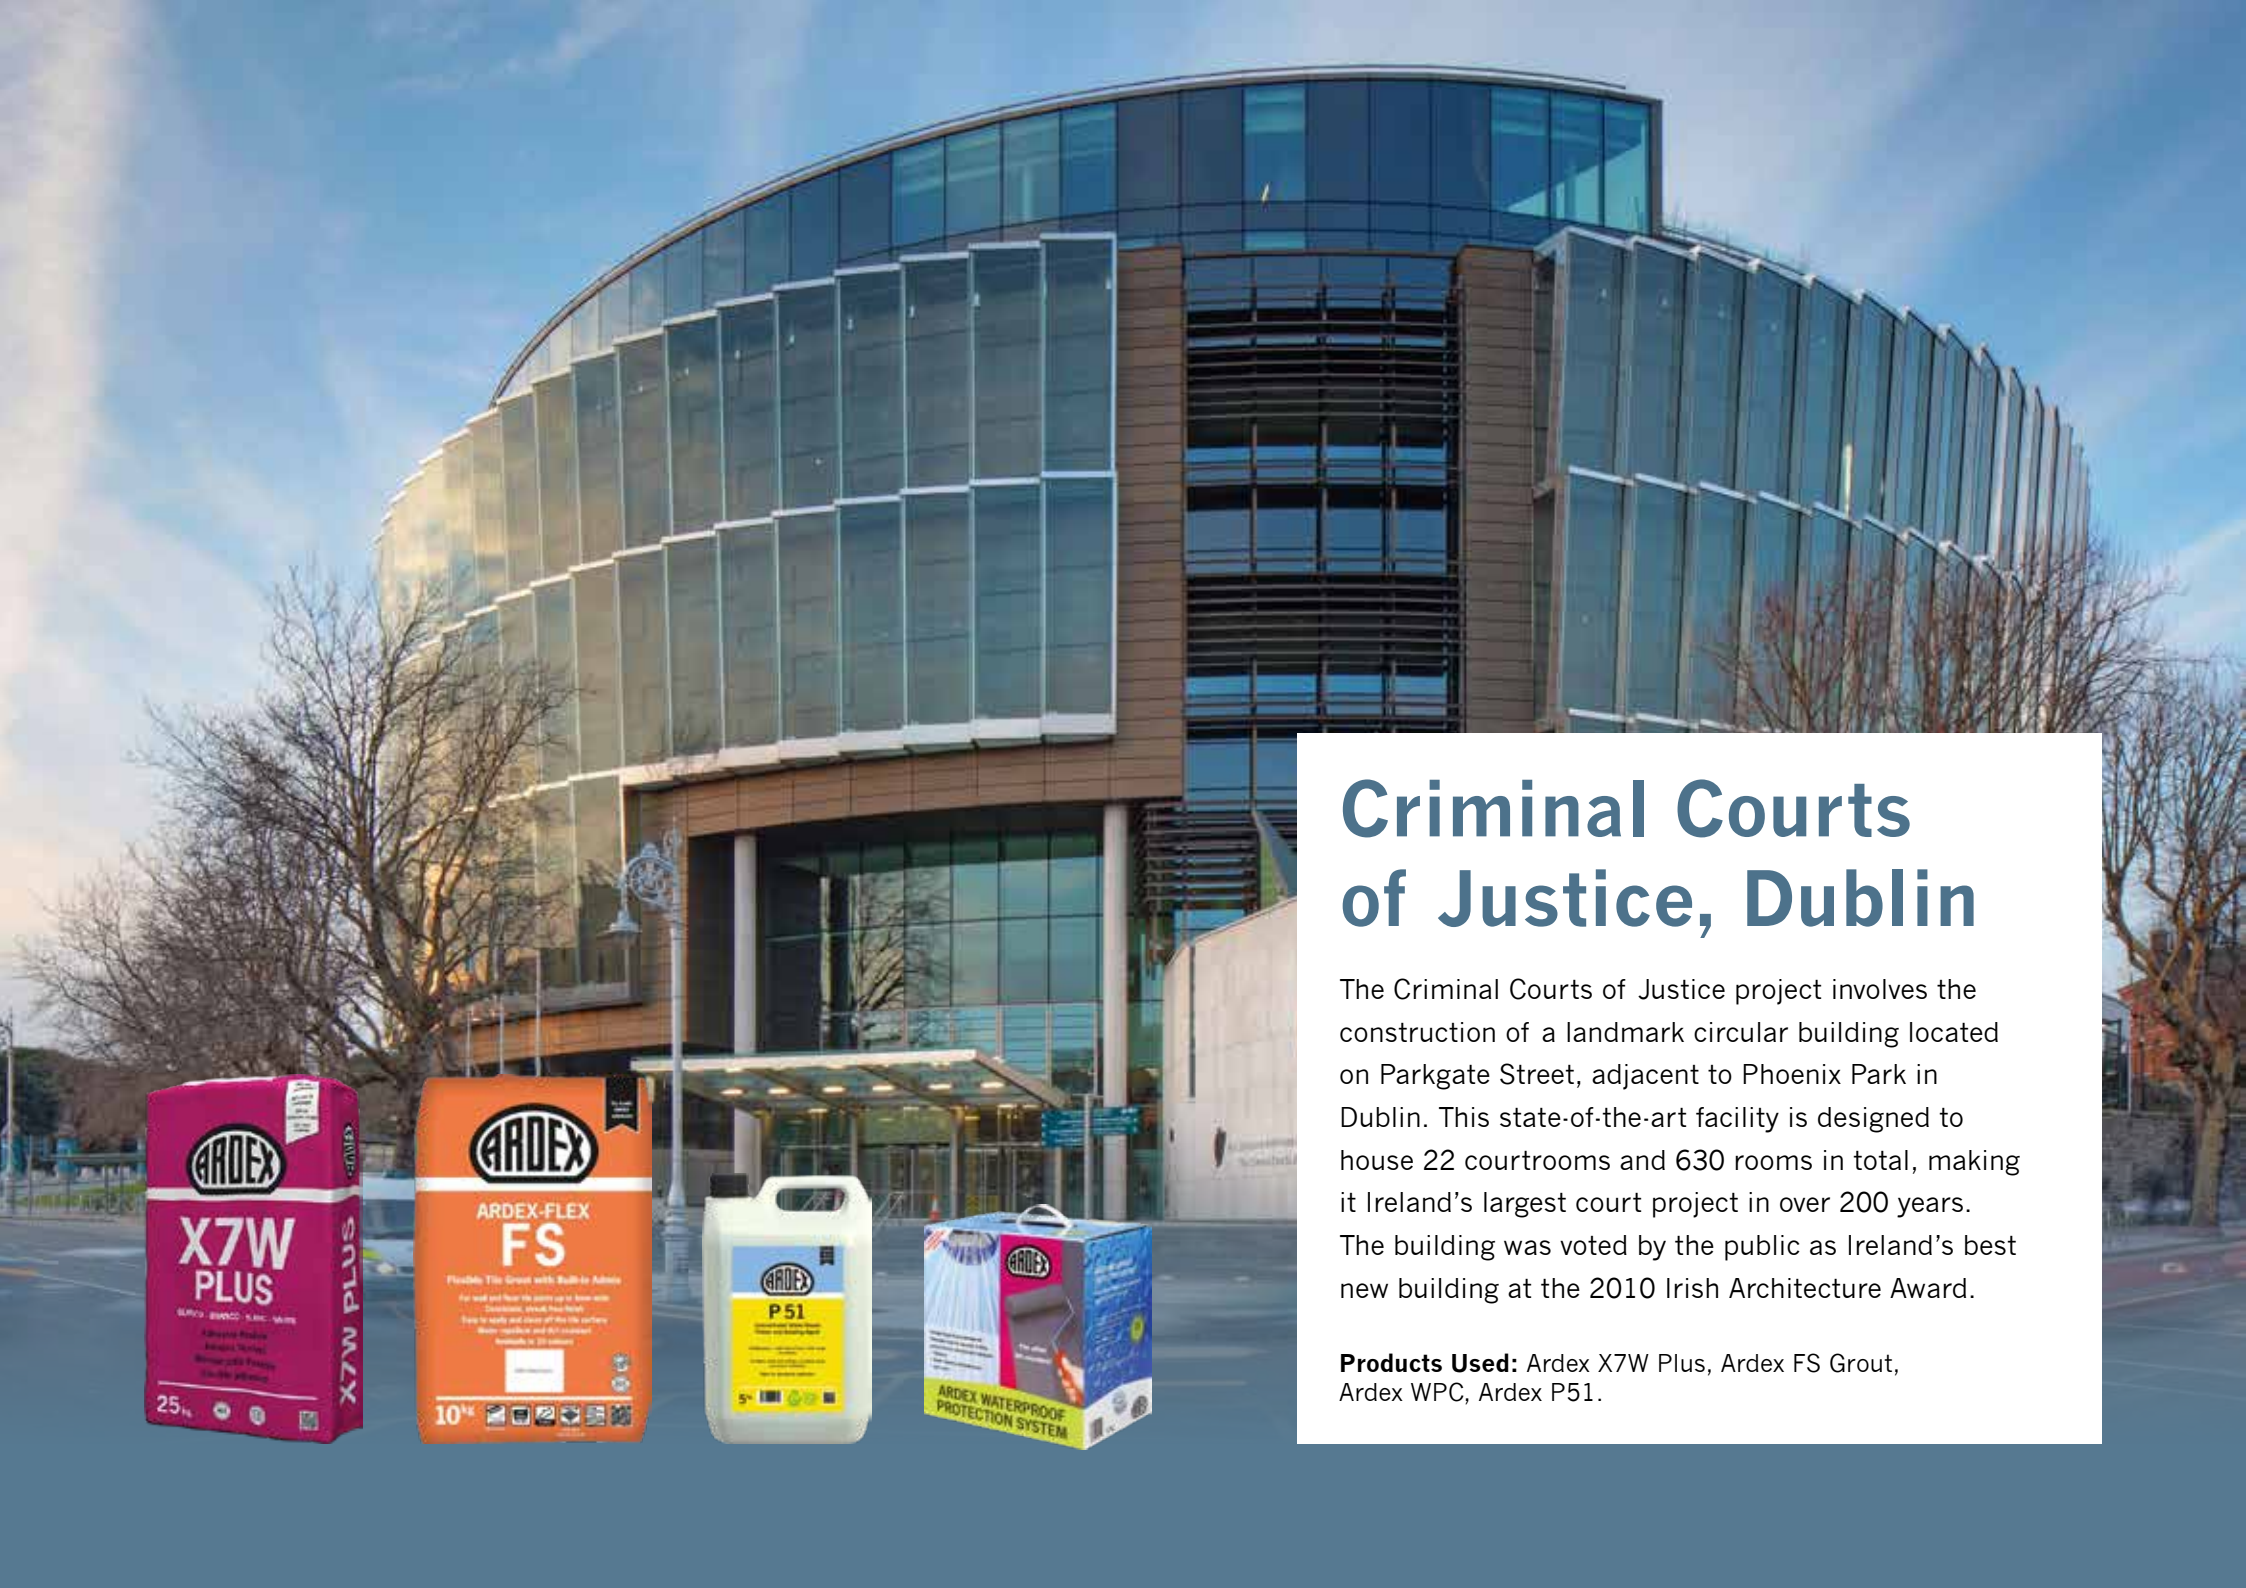

07 Specify Large Format Tiles for Wall and Floor with Confidence

Provider: ARDEX Building Products Ireland Ltd.

Training Subject: Tiling

The purpose of this seminar is to bring to you some of the specialist knowledge we've gathered and developed during the years, in the selection and installation of large format tiles and panels. It is our aim to inform you of the key issues in choosing and installing internal large format tiles and panels, and help you gain confidence in specifying these in any contract or project. Throughout this seminar we will highlight the common problems and watch-points, and at the end of the session we will summarise all the relevant information.

Criminal Courts of Justice, Dublin

The Criminal Courts of Justice project involves the construction of a landmark circular building located on Parkgate Street, adjacent to Phoenix Park in Dublin. This state-of-the-art facility is designed to house 22 courtrooms and 630 rooms in total, making it Ireland's largest court project in over 200 years. The building was voted by the public as Ireland's best new building at the 2010 Irish Architecture Award.

Products Used: Ardex X7W Plus, Ardex FS Grout, Ardex WPC, Ardex P51.

08 Building Board Solutions

Provider: ARDEX Building Products Ireland Ltd.

Training Subject: Building Board Solutions

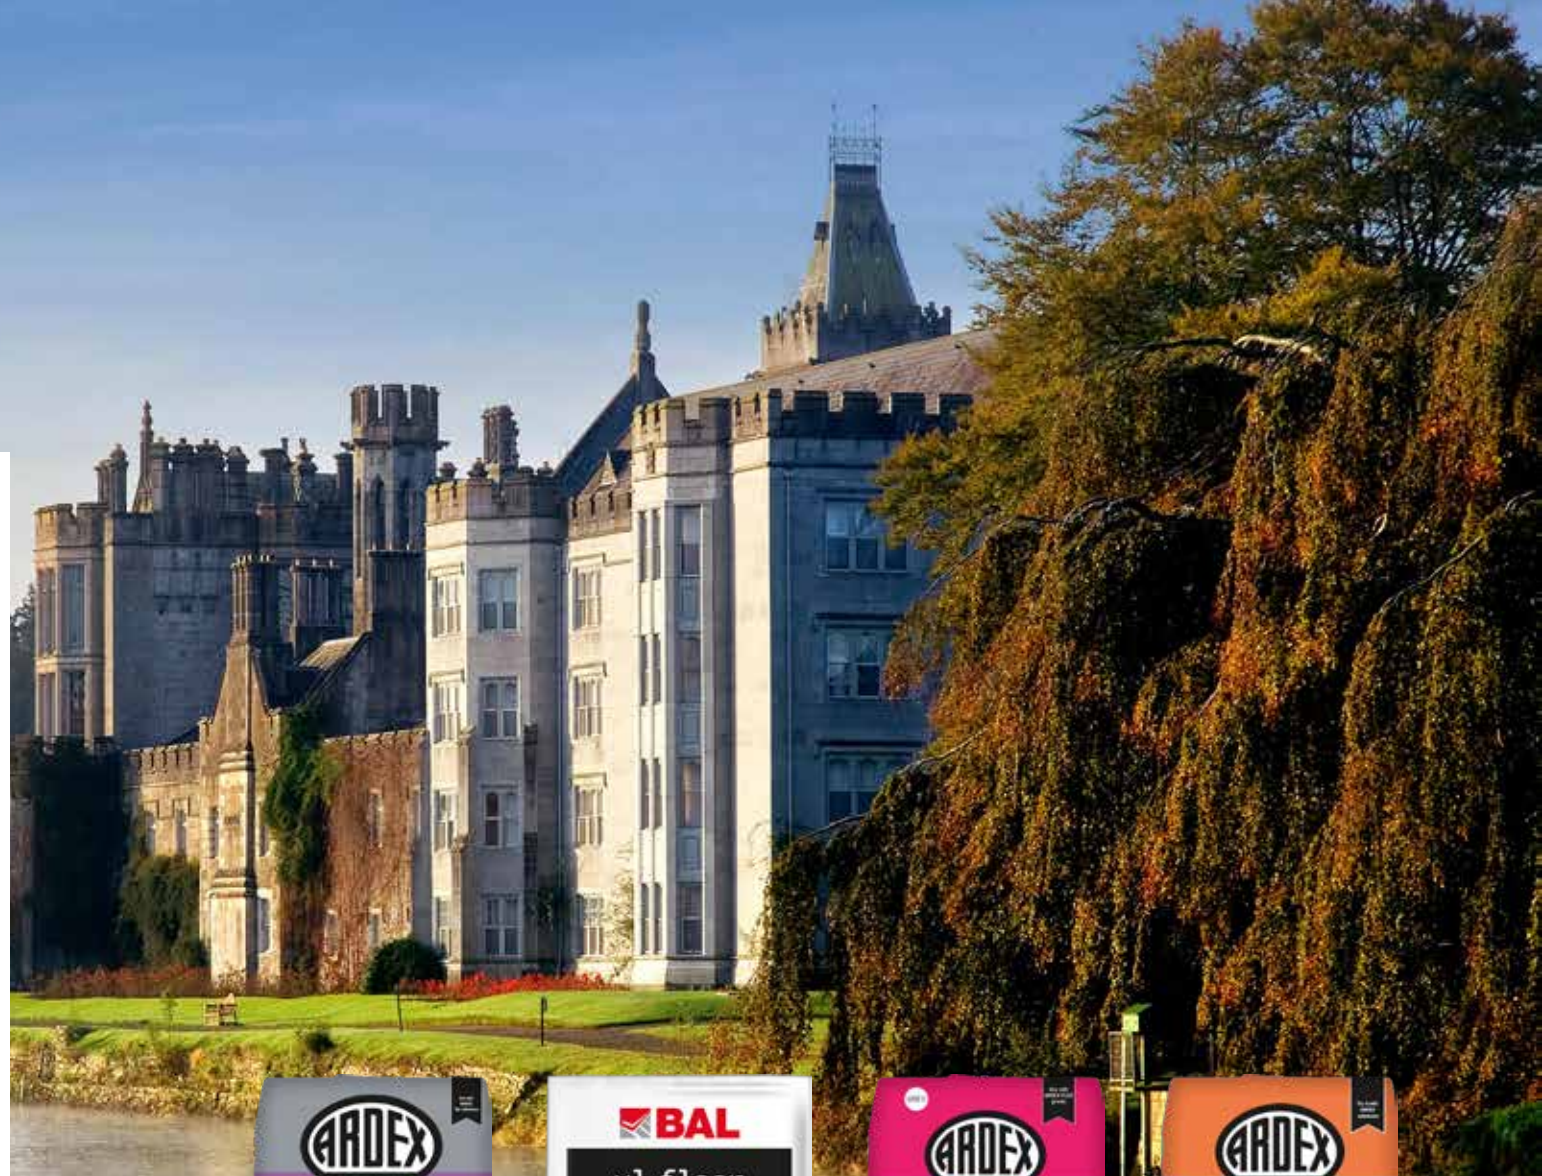

The purpose of this CPD seminar is to help the professionals involved in designing and specifying for wet & damp environments enhance their understanding of key design considerations such as waterproofing, health & safety and relevant standards

Adare Manor

The Adare Manor project involved the extensive restoration and redevelopment of the historic 17th-century neo-gothic manor house, located on an 840-acre estate in Limerick. This ambitious project aimed to recreate a luxury 5-star hotel and golf resort, blending the manor's rich heritage with modern amenities. The redevelopment included the refurbishment and extension of the 1989 guestroom wing, the addition of a new guestroom wing, a ballroom, banqueting suites, and a world-class spa.

Products Used: BAL Tank It, Ardex AM100, BAL XL Floor One, Ardex X7R, Ardex FS Grout.

09 Wet Room Solutions

Provider: ARDEX Building Products Ireland Ltd.

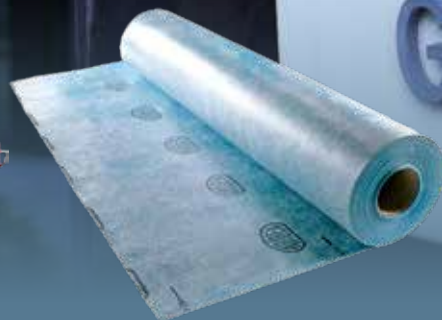

Training Subject: Wet Room Solutions

The purpose of this CPD seminar is to help the professionals involved in designing and specifying shower systems or wet rooms gain a deeper understanding of modular wet room systems and the integrated approach to meet various design challenges and extend design potential with assured security.

Google Exchange, Dublin 2

The Google Exchange project involves the redevelopment and extension of the Treasury Building located on Grand Canal Street Lower in Dublin 2. This project aims to create a new campus for Google Ireland, providing a modern and sustainable workspace for approximately 1,700 employees. The redevelopment includes the addition of 7,802 sq.m of office space, resulting in a total of 20,933 sq.m of floor space

Products Used: Ardex X325, Ardex AF2365, Ardex DS20, Arditec NA, Ardex AF145.
